Jefferson Gakuya

Software Engineer

I am a talented and ambitious individual with a strong aptitude in Software Engineer with an excellent grip over computer packages. I am keen to start my professional career, eager to further my education in software engineering while working as an assistant of an experienced employer.

Work Experience

Dec 2018 - Apr 2019

Antioch Baptist Computer Labs, Computer Technician Assistant

Linked computers to a network and peripheral equipment, including printers and scanners.

Brokedown and evaluated user problems, using test scripts, personal expertise, and probing questions.

Tested and installed motherboards, processors, and graphics cards on desktops and laptops for corporate staff.
